

A perfect decoration in natural wood style

Conwood product range

Holcim (Singapore) Limited

Conwood: An eco-friendly wood replacement product

Inspired from the idea of sustainable construction, Conwood is an eco-friendly wood replacement product that enables people to have better quality of living while maintaining harmony with the environment.

Crafted with the highest quality cellulose fibre and portland cement, Conwood combines the positive properties of concrete and wood to make the ideal wood replacement. It is highly durable, termite-free, incombustible, yet retains the beauty and feel of natural wood looks.

Conwood can be used for wood for home and commercial projects, suitable for indoor or outdoor with various applications such as eaves, ceilings, walls, flooring, fencing, as well as decorative functions.

Natural wood beauty

Durable

Termite-free

High workability

Eco-friendly

Non-combustible

Weatherproof

Inspiration for green planet

Green product

As a wood replacement product, Conwood reduces the demand of natural wood which will eventually reduce deforestation.

Green technology

The manufacturing process of Conwood uses innovative and eco-friendly Swiss technology with non-toxic and non-hazardous substance.

Green building

Conwood is certified with Green Label in Singapore and it facilitates the assessment for green building certification.

Arrow	Natural	1.6	10	150	2.98
Standard	Natural	1.6	10	150	3.07
Classic	Natural	1.6	10	150	3.07
Branch	Natural	1.6	10	100	2.05

Handling and storage

Handling

Conwood products should be carried vertically by 50cm from the edges on both ends.

Storage

Always ensure to place Conwood products on a wooden pallet in dry location. When storing outdoors, Conwood products must be stacked and covered with canvas to avoid exposure to rain and dust.

Technical data sheet

Product Properties	Standard	Test result
Dimensional Tolerance		
• Length	ASTM C1185	± 3.0 mm (600 - 3,050 mm)
• Width	ASTM C1185	± 1.0 mm (50 - 305 mm) ± 3.0 mm (600 - 1,220 mm)
• Thickness	ASTM C1185	± 0.1 mm (8 - 30 mm)
Density	ASTM C1185	1.2 g/cm ³
Moisture content	ASTM C1185	5%
Water absorption	ASTM C1185	30%
Dimensional stability	ASTM C1185	0.27%
Non-combustibility	BS 476 part 4	Pass
Ignitability	BS 476 part 5	Pass
Fire propagation index	BS 476 part 6	I = 0
Surface spread of flame	BS 476 part 7	Class 1
Fire resistance	BS 476 part 22	30 - 60 minutes
Thermal conductivity	ASTM C177-97	0.184 W/m.K
Thermal resistance	ASTM C177-97	0.082 m ² .K/W
pH value	-	9 pH
Modular Of Elasticity (MOE)	ASTM C1185	5,000 - 8,000 MPa
Flexural strength	ASTM C1185	11 - 15 MPa
